SUMMARY

Senior Full Stack Engineer with 9+ years of experience designing and developing scalable SaaS platforms, AI-powered applications, enterprise systems, Web3 products, and cross-platform mobile applications.

Specialized in React.js, Next.js, Node.js, React Native, TypeScript, and cloud-native architectures. Proven experience delivering products used by thousands of users across Healthcare, FinTech, EdTech, E-Commerce, Logistics, HRTech, and Blockchain industries.

Successfully contributed to and led development of platforms serving millions of records, handling high-volume transactions, integrating AI capabilities, and supporting global user bases.

EDUCATION

Thapar Institute of Engineering & Technology
Master of Computer Applications (MCA) *2014 – 2016*

Kurukshetra University
Bachelor of Computer Science *2011 – 2014*

EXPERIENCE

Independent Consultant / Freelance Full Stack Engineer Jun 2024 – Present
Remote

- Architect and develop SaaS platforms, mobile applications, AI-powered products, and enterprise web applications.
- Collaborate directly with startup founders and business stakeholders to define product roadmaps and technical architecture.
- Deliver full-cycle product development from discovery through deployment and scaling.
- Build AI integrations using OpenAI and modern LLM tooling.

Full Stack Developer Sep 2020 – Jun 2024
Neebha Technologies

- Led development of enterprise web applications using React, Next.js, Node.js, and MongoDB.
- Designed scalable backend services and APIs supporting thousands of users.
- Implemented payment gateways, CRM integrations, and automation workflows.
- Mentored junior developers and collaborated with UI/UX, QA, and project management teams.
- Delivered projects across healthcare, logistics, eCommerce, education, and HR sectors.

Full Stack Developer Jan 2016 – Aug 2020
PROGIS

- Built full-stack software solutions for domestic and international clients.
- Developed frontend applications, backend services, and database architectures.
- Worked across the complete software development lifecycle from planning to deployment.
- Optimized application performance and improved system scalability.

PROJECTS

Auto Parts Shop | Enterprise eCommerce platform managing over 1 million automotive products.

- Built scalable product catalog architecture.

- Optimized search and filtering performance.
- Enhanced checkout workflows and API integrations.
- Supported operations across 48 US states.
- Technology: React, Node.js, MongoDB, APIs

WellSuited | AI-powered recruitment platform designed to improve hiring outcomes.
- Built candidate evaluation workflows.
- Developed recruiter and employer dashboards.
- Automated onboarding and hiring pipelines.
- Reduced recruitment bias through AI-assisted evaluation.
- Technology: Next.js, Node.js, OpenAI, PostgreSQL

Noodle Factory | AI-powered education platform serving thousands of students and educators.
- Led a team of 7 developers.
- Built scalable dashboards and analytics.
- Integrated AI-driven educational workflows.
- Supported 10,000+ active users.
- Technology: React, Node.js, OpenAI, MongoDB

Shadowfax | Logistics and delivery management platform.
- Built real-time tracking interfaces.
- Improved delivery workflow efficiency.
- Reduced query times by 40%.
- Optimized frontend performance.
- Technology: Next.js, React, TypeScript, Tailwind CSS

Guild.xyz | Token-gated community management platform.
- Wallet authentication integrations.
- Token-based access control systems.
- Blockchain data integrations.
- Community dashboard development.
- Technology: React, Next.js, Ethers.js, Ethereum

Dune Analytics | Blockchain analytics and reporting platform.
- Data visualization interfaces.
- Analytics dashboard components.
- Performance optimization for large datasets.
- Blockchain reporting experiences.
- Technology: React, PostgreSQL, Analytics Systems

Juicebox Protocol | Decentralized fundraising and treasury management platform.
- Wallet connectivity.
- Smart contract integrations.
- Treasury tracking dashboards.
- Blockchain transaction workflows.
- Technology: Next.js, Ethereum, Ethers.js

Viva Life | Healthcare mobile application for medical records and diagnostics.
- HIPAA-compliant architecture.
- Secure storage and biometric authentication.
- Real-time synchronization with healthcare systems.

Ask Mom | Restaurant recommendation platform.
- Location-aware recommendations.
- Conversational user experience.
- Scaled to 100K+ users.

Voizo | Voice-first social networking application.

- Real-time WebRTC communication.
- Low-latency voice chat architecture.
- Team leadership across frontend and backend development.

Medical Dialogues | Healthcare media platform.

- Video streaming integration.
- Personalized content feeds.
- Improved user retention by 35%.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux, TanStack Query, Tailwind CSS, Chakra UI, Material UI, shadcn/ui, React Native, Expo
Testing: Jest, React Testing Library
Backend: Node.js, Express.js, NestJS, FastAPI, Laravel, .NET, REST APIs, GraphQL
Databases & BaaS: MongoDB, PostgreSQL, MySQL, Supabase, Firebase, Appwrite
Cloud & DevOps: AWS, Google Cloud Platform, Vercel, Docker, GitHub Actions, CI/CD, Sentry
AI: OpenAI API, LangChain, Pinecone, Vector Databases, RAG Systems, AI Agents
Web3: Ethereum, Ethers.js, Web3.js, WalletConnect, Wagmi, RainbowKit, ERC-20, ERC-721, Smart Contract Integrations, Token-Gated Systems
Integrations & Payments: Stripe, PayPal, Twilio, SendGrid, HubSpot, GoHighLevel

CORE ACHIEVEMENTS

- Built enterprise-grade eCommerce systems managing over 1 million products across 48 US states. - Delivered AI-powered recruitment platforms reducing hiring bias and improving recruitment efficiency. - Led development teams of up to 7 engineers across SaaS, AI, and mobile projects. - Built and scaled applications serving 10,000+ daily active users. - Integrated OpenAI, LangChain, Pinecone, Stripe, PayPal, HubSpot, and GoHighLevel into production applications. - Developed Web3 applications featuring wallet authentication, token-gated access, blockchain analytics, and DAO tooling. - Delivered healthcare applications supporting secure patient records and HIPAA-compliant workflows.

INDUSTRY EXPERIENCE

FinTech • AI • SaaS • Web3 • Healthcare • HRTech • Logistics • E-Commerce • EdTech • Real Estate • Travel • Social Platforms • Cybersecurity • Crowdfunding • Automotive • Food & Grocery
